Fire Department Headquarters Construction Underway

Troup County, Ga. July 24, 2019 – The Troup County Fire Department Administration Building project is currently underway. Construction officially began on Friday, July 12, 2019 with the demolition of the current Fire Department Training Center, located at 2495 Hamilton Road, LaGrange, GA 30241.

The SPLOST V project plans will involve the construction of a new, approximately 6,000 square foot facility. The newly constructed space will offer several administrative offices and Troup County's emergency operation center, as well as a unified classroom/training space for paid and volunteer firefighters. The next phase in the construction process will involve site work, including the removal and disposal of demolition debris, site grading, and building pad preparation before moving to structural work.

The Troup County Board of Commissioners is working with 2WR of Georgia, Inc. to fulfill the architectural agreement for the engineering and design of the fire administration/training building, as well as River City Contracting. The predicted completion date is spring 2020.
